

Give me 10 minutes; I'll give you 10 years

## **Magnetic Masque™**

**Super-magnetic Skin Firming in 10 minutes**  
**GRAS – Certified by FDA**  
**100% PURE desert clay from USA**

### **The 43 million years old volcanic ash - A Mystical Creation of Mother Nature**

Magnetic Masque is indeed volcanic ash which has turned to a rare type of high calcium desert clay after a period of 43 million years. It has extraordinarily strong skin-firming and drawing power that is unsurpassed by any other known clay in the world. Created by nature's own laboratory and isolated from contaminants by a layer of zeolite minerals for 43 million years, the clay is mined from the last remaining source on Earth in California desert, USA.

### **Natural Skin-Firming**

Magnetic Masque is super-charged with extraordinarily strong skin-tightening and clarifying properties that cannot be artificially created by modern technology! The strong negatively charged clay molecules effectively attract positively charged bacteria, impurities and toxins through your skin pores. It is thus excellent for removing dead skin cells, old make-up and also highly effective for skin conditions such as blackheads, acne, pimples, blemishes and rashes etc. The absorptive and adsorptive properties of the clay make it best to be used as natural facial masks and full body wraps. Indeed, it is used by the most exclusive spas around the world!

### **100% Pure - Unsurpassed Quality**

Our clay is certified by independent agency (by using gas mass spectrometer) as 100% PURE healing clay and certified as GRAS (Safe for Human Consumption) by FDA. It is the only 100% PURE, Pharmaceutical Grade facial clay available in the market today! Use it with peace of mind that your delicate skin is taken care of.

- **Facial Masks and Full Body Wraps**

Apply a moderate layer of Magnetic Masque onto your face or body, slowly massage in circular motion and allow the mask to dry. Cleanse at least 15 minutes after application. For dry skin, follow by applying a fine moisturizing cream. Use Magnetic Masque for skin firming, smoothing wrinkles, cleansing, exfoliating and improving blood circulation.

- **Insect/Animal Bites and Burns**

For all of the above, it is important to allow the Magnetic Masque to dry on the wound. Then gently remove the dried clay mask with a most sterile gauze pad or cloth before applying another layer of fresh masque. Do not risk irritating or infecting the wound by trying to scrub away particles of clay that stick to the wound.

For Insect (mosquito, red ant, scorpion and bee sting etc) bites and Animal (cat and dog) bites and scratches, immediate application of Magnetic Masque can absorb and neutralize foreign toxic enzymes, prevent infections and stop pain and itching.

Repeat application of fresh masque is essential for burns and sunburns. Magnetic Masque remains 3 degrees cooler than the ambient air temperature; and seals the burn and sunburn injuries from air-borne contaminants that could otherwise cause infection.

- **Detoxifying Clay Baths**

Dissolve a cup of MAGNETIC MASQUE in a tub full of very warm water. Lie back and relax in bath tub until too cool for comfort (about 20 minutes). Magnetic clay bath actually draw out toxic chemicals and heavy metal through the pores of the skin. Magnetic Masque naturally carries extremely strong negatively charged molecules that attract positively charged heavy metal, pesticides and toxins. This is a natural remedy for heavy metal poisoning, used by many natural therapists in USA.
