

Greens of KAMUT®

Each bottle of **Greens of Kamut** (45g) juice essence is uniquely extracted from 1.5kg of fresh Kamut grass! 100% Quality Pledged.

Why tolerate tough fiber that your body cannot digest; or buy a brand with big bottle loaded with chemically processed stabilizer like Maltodextrin?

EXCLUSIVE SPECIE – Officially recognized as OK-77 by USDA, a protected variety.

“Greens of Kamut” is 100% organic juice extract from young tender leaves of Kamut wheatgrass, a non-hybrid, non-GMO plant of ancient Egypt that contains more protein, trace minerals and nutrients than common wheatgrass.

EXCLUSIVE SOURCE – We possess the exclusive rights to produce “Greens of Kamut” from young Kamut wheatgrass.

Kamut is grown at our own 2,800-acre organic farmland at 5000-foot mountain of an ancient volcanic lakebed in Utah. Irrigated by mineral spring and harvested at the peak of nutrition, Kamut is processed “on sight” at low temperature to lock its nutritional potency, yielding a completely non-pasteurized and highly concentrated (33:1) powdered essence. While tray-grown wheatgrass (which is cut down in 7 days) is beneficial, its nutritional value is not comparable to Kamut grass that has developed complete root systems into the fertile volcanic ground.

UNIQUE PROCESSING TECHNOLOGY – Our proprietary processing technique captures live enzymes without upsetting nature’s delicate balance of the sensitive nutrients that naturally existed in the Kamut grass itself.

The nutritional value of cereal grasses, including barley and wheatgrass, vary greatly on how the grasses are processed. Some producers simply cut the grass and chop it up into fine powder; but the nutrients of Wheatgrass remain trapped inside its tough cellulose cell wall (fiber) which is indigestible by human body. Some other producers package their products in big bottle loaded with chemically processed stabilizers such as Maltodextrin etc., to make the product look economic. The unique extraction technology utilized by Pure Planet ensures world-class quality of 100% pure (additive FREE) highly concentrated powdered essence is produced - the definite choice of natural health practitioners!

Unique Superfood Nutrition

Concentrated source of live enzymes, viz. P4D1, Muco-polisaccharides, SOD, Cytochrom Oxidase, Lipase, Protease, Amylase, Catalase, Transhydrogenase etc; many yet to be researched! Unlike whole-leaf wheatgrass which cell wall is made up of indigestible cellulose, Greens of Kamut is scientifically extracted and thus its nutrients are readily available for body absorption. It is so fast-acting that it melts instantly under your tongue. On an empty stomach, it is assimilated into the blood in just 20 minutes.

Complete spectrum of alkalizing organic nutrients, viz. vitamins, minerals, proteins (with all essential amino acids), pigments, chlorophyll and phytonutrients. Its calcium, 20 times of cow’s milk, is perfect for body absorption; unlike spinach that has oxalic acid bound to its calcium making it unusable by human body. It is more superior to Multi-vitamins pills made of inorganic nutrients which have to be chemically pre-digested and overdosed in an attempt to force absorption.

100% ORGANIC EGYPTIAN WHEATGRASS JUICE ESSENCE
The Ultimate Whole-Food Source of Live Enzymes

KAMUT IS GROWN AT OUR OWN 2,800-ACRE ORGANIC FARMS AT 5000-FOOT MOUNTAIN OF AN ANCIENT VOLCANIC LAKEBED IN UTAH, USA – ONE OF THE LARGEST KAMUT/BARLEY FARMLAND ON EARTH.
