

EARTHRISE

# 100% Quality-Pledged Spirulina

UNSURPASSED PURITY AND POTENCY

GRAS affirmed by FDA

Read these important facts before you grab a bottle:

## Maximum Purity & highest Potency

Guaranteed by EARTHRISE USA from its own farm to you!

1. Spirulina Natural® is ecologically grown in EARTHRISE's own farms - the largest Spirulina farms on Earth in remote California desert. The proprietary cultivation technology used by EARTHRISE is so unique that the purity of Spirulina culture is maintained without the use of pesticides, herbicides, irradiation and other bacteria-killing processes.
2. With perfect desert climate for growing Spirulina, two decades of scientific research and most advanced (ISO9001 & GMP-certified) facility, EARTHRISE produces Spirulina Natural® which has the highest potency in the world! It is uniquely processed in such way that its full potency is preserved. The fully-automated process from harvesting to bottle takes only 15 minutes - without being touched by human hands!
3. EARTHRISE Spirulina is rigorously lab-tested for its purity and potency, pushing its quality to the limit of uncompromising level. EARTHRISE scientists conduct over 40 QC analyses per production lot (against cyanobacteria toxins and environmental contaminants etc.) using proprietary technology, to ensure purity of Spirulina culture. None detected - not even down to part-per-billion.
4. Spirulina Natural® has the highest potency level of various nutrients (including at least 14% Phycocyanin) as compared with any other Spirulina brands sold in the world. It has been endorsed as **GRAS** by USFDA. GRAS certification ensures that the product is truly safe for human consumption through scientific procedures and in-depth analyses.
5. It is also the best selling Spirulina in USA and is available over 30 countries worldwide.
6. EARTHRISE is not just supplement manufacturer; they are also Spirulina grower and more specifically – group of scientists and specialist in Spirulina cultivation. The quality of EARTHRISE® Spirulina Natural® is guaranteed by EARTHRISE USA, for your peace of mind! Whereas other brands (sold in Malaysia) do not grow Spirulina - they are mere repackers of Spirulina (sourced from India, China ... etc.) that do not have direct control over the quality of their Spirulina.

ABSOLUTELY THE HIGHEST POTENCY SPIRULINA IN THE WORLD

## Spirulina - NATURE'S MOST UNIQUE NUTRITION

1. Concentrated source of antioxidants and complex Carotenoids, which work in synergy to protect our cell from damaging effects of free radicals. One serving (6 tablets/3g) of Spirulina Natural is equivalent to 3-4 servings of vegetables in terms of antioxidant content.
2. Powerhouse of Phytonutrients, especially Phycocyanin - the blue pigment found only in Spirulina, which enhances immune defense and promotes cellular health.
3. 60% vegetarian protein, complete with all essential amino acids.
4. Packed with full spectrum of vitamins and minerals with high level of Vitamin B12 and Iron – an ideal supplement for vegetarians.
5. Natural source of Zeaxanthin that promotes eye health.
6. Rare food source of essential fatty acid – GLA.

Exclusively from EARTHRISE USA - the Spirulina specialist
